

## Odyssee Mobile Sales

Improve productivity, boost your turnover and your client satisfaction. Your sales force is equipped with a Pocket PC, Smartphone or laptop on which Odyssee Mobile Sales is installed. Odyssee Mobile continuously exchanges information with your company's back-office. This means that your mobile sales force is in constant contact with your internal sales team.

At any time, your sales person will be fully informed. He constantly receives the latest information about items and stock, altered pricelists, current promotions, customer details, etc. With this key information at his fingertips, he can concentrate on the real art of selling.

Your sales force registers orders, presents new products and promotions, carries out a store check, adjusts customer details, notes questions from customers and draws up sales or visit reports. All the gathered information can be sent immediately to your company's back-office/ERP via a mobile network. All data can be processed immediately. Your time profit and efficiency gain is enormous and your customers are served so much faster.

### **MOBILE ORDERING**

An extensive ordering tool enables you to place orders quickly and efficiently with exact stock details, prices and terms and conditions of sale. Orders can be placed free of error by using barcode scanners, a product list or the powerful search function. You can use linked product lists to order even faster or the product configurator to supplement the basic article with various options.

### Product Features

#### **Mobile Sales**

Version 4.xx

#### Special Features

Smartphone & GPS  
Integration

#### Support

Our qualified staff and professional programs are trained and designed to support our clients and partners the right way to make our solutions give them maximum revenue.

### **MOBILE SALES**

Odyssee Mobile Sales provides your sales team with a complete mobile system. All contact and invoice details, open invoices, back orders and sales records appear on the screen immediately. It is also possible to consult the agenda, leads and opportunities and make or mail tasks directly from the mobile application. Odyssee Mobile is also Outlook compliant.

# ODYSSEE MOBILE SALES

## VISIT REPORTS

Each type of report can be drawn up and deployed easily on each mobile device, thanks to the simple Forms Module. Your staff gathers information on site using VR and sends it to the sales manager. This gives you an extensive overview of the market in a quick and efficient way and enables you to gauge your profitability.

## MOBILE MERCHANDISING

With the merchandising module, representatives can interactively follow up promotions and offers, draw up inventories and conduct store checks. The manager can see the results immediately online via search commands and reports.

## MOBILE TRADE FAIR

You can expand Odyssee Mobile Sales with a Trade Fair module. This enables you to place orders, request stock information and manage customer information in real time at a trade fair. Therefore, your customers will have shorter waiting times at your booth. You will have more time for your customers and doing so, you increase your turnover. You will be all set for success!

## YOU WIN

With the implementation of Odyssee Mobile, our clients testify about an enormous progress:

- 31% more processed orders
- 35% more revenue
- 200% administrative progress
- ROI (Return On Investment) in 1 to 3 months
